WORK EXPERIENCE

Junior Front-End Developer Immence Enterprise Pvt Ltd

05/2023 - Present

Vadodara

Tasks/Projects

- Developed responsive web applications using React.js and TypeScript, meeting client requirements and UI/UX design specifications;
- Integrated APIs seamlessly for dynamic data retrieval and display, ensuring smooth front-end to back-end communication;
- Collaborated closely with backend and senior team member to integrate front-end components, achieving project goals and milestones;
- Successfully met daily and weekly goals, prioritizing tasks to deliver bug-free and visually appealing web apps on time;
- **Immencer's 2.0** - Led the development of Immencer, an intuitive employee management system featuring admin and employee panels. Admin tools streamlined HR tasks, while the employee panel provided easy access to personal details, attendance records, and more. Utilized React.js, Typescript, and Material-UI for seamless UI/UX design. Integrated APIs for efficient front-end to back-end data exchange, ensuring project success through timely delivery and high-quality code.
- **Azle.io** - I spearheaded initiatives to revolutionize customer support, integrating multiple channels into a unified platform. Key contributions included developing an Internal Chat Module, implementing Scroll Pagination, and integrating a Customer Merge Module. Leveraging Redux for Global State Management, I enhanced platform functionality and user experience while focusing on UI improvements for seamless navigation and satisfaction.

Web Developer Solar Secure Solution

03/2023 - 04/2023

Work From Home

Internship

Achievements/Tasks

- Completed assigned tasks on time using HTML, CSS, JavaScript, and Bootstrap, focusing on responsive web design principles;
- Enhanced proficiency in JavaScript and Bootstrap through practical application, contributing to the development of visually appealing and functional web interfaces.
