### Junior Software Developer - (Front-end Developer)

May 2023 - Present

Immence Enterprise Private Limited

*Vadodara, Gujarat, India*

- Developed responsive web applications using React.js and TypeScript, meeting client requirements and UI/UX design specifications.
- Integrated APIs seamlessly for dynamic data retrieval and display, ensuring smooth front-end to back-end communication.
- Collaborated closely with backend and senior team member to integrate front-end components, achieving project goals and milestones.
- Successfully met daily and weekly goals, prioritizing tasks to deliver bug-free and visually appealing web apps on time.
- Implemented optimization techniques for enhanced performance, documented code changes, and communicated effectively with team members.

### Web Developer - (Internship)

March 2023 - April 2023

Solar Secure Solution

*Work From Home*

- Completed assigned tasks on time using HTML, CSS, JavaScript, and Bootstrap, focusing on responsive web design principles.
- Enhanced proficiency in JavaScript and Bootstrap through practical application, contributing to the development of visually appealing and functional web interfaces.

### Teacher

March 2017 - December 2022

Prayas Tuition Classes

*Vadodara, Gujarat, India*

## PROJECTS

---

### Immencer 2.0

- Developed Immencer: An intuitive employee management system with admin and employee panels.
- Admin panel: Streamlined HR tasks like employee management, asset allocation, attendance tracking, leave management, and policy dissemination.
- Employee panel: Facilitated easy access to personal details, attendance records, leave requests, and training resources.
- Leveraged React.js, Typescript and Material-UI for seamless UI/UX design and responsiveness.
- Integrated APIs for efficient data exchange between front-end and back-end systems.
- Contributed to project success by meeting deadlines, ensuring code quality, and delivering client satisfaction.

## Azle.io

- Azle.io revolutionizes customer support by integrating multiple channels into one platform. Its enhanced responsiveness and intuitive admin panel optimize workflow and ensure prompt customer inquiry responses. Customization options, data-driven insights, and emphasis on security and scalability enhance the personalized customer journey and satisfaction.
- Contributed to Azle.io's evolution by developing an Internal Chat Module, implementing Scroll Pagination, and integrating a Customer Merge Module. Employed Redux for Global State Management and ensured UI Enhancements, including form validation and bug fixes, enhancing user experience and platform functionality.
